Changing Seasons, Community Business

Submitted by: Betsy Wergin, President, Fountain of the Sun Board of Directors

The Labor Day Weekend in Minnesota means the start of the School Year and the beginning of the end of cabin/camping season. Weather in Minnesota will start to cool off. Some Arizona residents are returning from their cabins or camping in the mountains or from visiting family and friends that live in cooler climates. Weather in Arizona will begin to get a bit cooler. The seasons come and go no matter where you live.

As the weather begins to cool off just a bit, budget season in FOS and all HOA Communities is heating up.

The 2027 budget requests from clubs, individuals, operations and staff, which were due June 1, are in. Board members have had the opportunity to prioritize the requests. That prioritization will be discussed at the September Board meeting. Blake, FOS General Manager, along with Craig Yopp, Board of Directors treasurer, have likely completed the first draft of the 2027 budget for FOS. There are some new state laws being evaluated for their effect on the 2027 that you may want to know about.

SEPTEMBER BOARD OF DIRECTORS MEETING

Wednesday, September 23
at 6:00 PM

At the September Board of Directors Workshop on Monday the 21st at 1:30 PM and at the September Board of Directors meeting on September 23rd at 6PM the budget, RV Park possibilities and so much more will be discussed.

If you want the facts about what is actually happening in our community, there are several ways to get them. Attending a Board of Directors meeting or Workshop, reading the OFFICIAL Sun Times digital edition, or going to the office and picking up a printed copy of the OFFICIAL Sun Times Newsletter. The only factual and official Board of Directors minutes, editorials and Board communications are in the digital Sun Times and printed by our staff for pick up at the office. You can also see announcements and other information, news and events on the Fountain of The Sun Association Facebook page which is the official Facebook page for FOS.

As added information, clicking on the FOS official online Sun Times is already generating income for FOS and has the potential to generate substantially more with more readers. By using this publication FOS receives the ad dollars for all ads placed in the official digital Sun Times. This is just one of the ways your Board of Directors works to generate income in ways other than your monthly dues.

A WELL-MANAGED HOMEOWNERS ASSOCIATION BENEFITS ALL RESIDENTS

Submitted by: Dennis Kroft, Vice President, Fountain of the Sun Board of Directors

Fountain of the Sun belongs to a consortium of seven HOAs that meet once a year to discuss budgets, capital improvements, activities, facility maintenance, etc.

To belong to this consortium, each HOA must have four elements in common:

- 1) 24/7 security;
- 2) Be self-managed;
- 3) Own their property - no land rentals; and
- 4) Maintain their own private roads.

While some communities have RV and park model homes, the costs are comparable for all communities - security, road maintenance and in-house management, which have nothing to do with the style of housing in each community. In addition, the majority of the HOAs have similar size annual budgets and similar annual contributions to capital reserves.

The below chart shows a number of comparisons in different categories for each HOA.

For this article, we bring to your attention the yellow highlighted row entitled Assessment Fees. It shows that for single-family homes in Fountain of the Sun our assessment fee is almost 50% lower than the next closest next HOA in the consortium and much lower than most others.

A notable difference on the chart is that FOS is at the low-end for the number of pickle ball courts, while we have by far a larger community by number of homes and population. Also, FOS has many more miles of roads to maintain than all other HOAs.

So, what's the point? Out of these comparable HOAs, FOS has managed its level of assessment fees well below other HOAs, while maintaining and improving its facilities and activity assets for the benefit of all residents. Quite an accomplishment!

Meet FOS Security

Hello everyone!

My name is Jeremy, and I'm originally from New Jersey. I recently moved to Arizona and am excited to start this new chapter and become part of the community. I currently work as a security guard, and one of my goals is to continue working in public service and eventually join the Mesa Police Department.

I'm looking forward to meeting everyone, and being someone the community can feel comfortable around.

One of my favorite Bible verses is Romans 8:11, which reminds me to keep my faith and trust in God as I move forward in life.

Outside of work, I enjoy playing basketball, playing video games, and spending time with family and friends.

**A FAMILY BUSINESS SERVING
THE VALLEY SINCE 1996**

Although we've been serving the Valley since 1996, our management team's HVAC roots go back much further. In fact, HVAC has been part of our family business for four generations. Each generation has built upon the foundation laid before it, shaping who we are today. One thing that has remained constant through the years is our commitment to serving every customer with integrity. That's why we have never employed salespeople or technicians with quotas to meet.

Our goal is quite the opposite. We focus on hiring and training technicians and installers who have the expertise and integrity to prevent future issues whenever possible. Of course, some problems are unavoidable when it comes to any appliance. When that happens, you can trust Liberty Cooling & Heating to take care of you!

Lions Club

Ever wonder what the Fountain of the Sun Lion's Club is about?

It is a global nonprofit with a deep legacy in charitable work. Service is done in many different areas which include Vision, Disaster Relief, Environmental, Youth Programs and Humanitarian Projects. Some of the local work we do is performing vision screenings at our local elementary schools, and help underprivileged children that need but cannot afford glasses. We also donate to the East Mesa Food Bank, collecting and providing donated eye glasses to area residents, and working with New Hope Community Center. And of course, our largest fund raiser, "Fly the Flag" program.

With the fall season just ahead, the FOS Lions will begin to plan for the coming year. Come join us and see what being a Lion is all about at our first meeting for the fall September, 8 at 4:00 in the pool side room.
Hope to see some new faces!

Multimedia Club Summer Updates

As we head into the warmer months, the Multimedia Club is excited to keep creativity flowing all summer long. Beginning in May, our facilitators will continue hosting open lab sessions every Monday and Thursday from 10 a.m. to noon. Whether you're polishing a project, exploring new tools, or just curious about what the club offers, these relaxed drop-in sessions are the perfect place to experiment and learn.

We're also thrilled to share that our new Chromebooks will be available for free use in the lab. Both members and non-members are welcome to take advantage of this upgraded equipment during open lab hours. It's a great opportunity to try out cloud-based creative tools, work on digital projects, or simply get comfortable with new technology.

Looking ahead to next winter, the club is already planning its presentation and demonstration schedule. We'd love to hear from you. What topics would you like to learn about? Whether it's photo editing, video storytelling, audio production, AI tools, or something entirely different, your ideas will help shape a lineup that inspires and supports our community.

If you have suggestions or want to get involved, be sure to share your thoughts at an upcoming open lab or reach out to the facilitators. Let's make the next season our most creative yet.

A Healthy Habit

By Judy A. Knox

Do you remember learning this little song in grade school?

“Stop, look, and listen, before you cross the street. Use both your eyes and both your ears, and then use both your feet.”

This applies to most everything we do in our everyday lives. When I first started making notices about our music group’s upcoming concerts, I had a simple process for creating a page with four copies on it, which we could all print and cut into quarters to make small flyers. But like a lot of technology these days, the company whose “user friendly” software I used kept upgrading. Every time I went to make a flyer, they had changed something. What I had done before no longer worked. By trial and error and lucky guessing, I would finally “get ‘er done,” but it took hours to finally get it right. When time for the next flyer rolled around, they had changed something else.

What used to be a fun, easy task had become a frustrating, time-consuming guessing game. After hours of struggling, I would stop and pray, “Help, Lord!” Then a new procedure would reveal itself to me and voila! Flyers! After going through this a few times, I finally got smart. I began asking God for help before I started the project. James 1:5 tells us if we lack wisdom in any thing we should ask God for it, and He will give it to us liberally, and won’t be annoyed with us for asking.

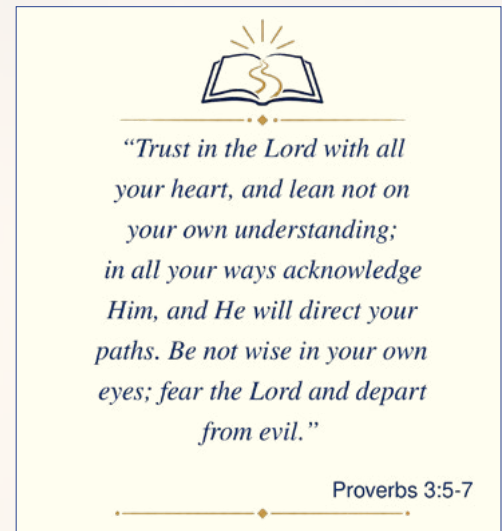

What I learned from this actually applies to life in general, not just to computer stuff. Proverbs 3:5 says, “Trust in the Lord with all your heart, and lean not on your own understanding; in all your ways acknowledge Him, and He will direct your paths. Be not wise in your own eyes; fear the Lord and depart from evil.” This is not something a person just does automatically.

The propensity for trusting in our own wisdom and understanding is a characteristic of human nature. But we can learn to sublimate that tendency and rely on someone who knows more than we do. And honestly, nobody knows more than God.

With our own wisdom and understanding, we’ll come up with some kind of a solution or process, only to find out later that there was a better, easier way. My plans and solutions tend to be complicated. God’s ways are streamlined. He is so much smarter than we are.

It’s a blessing to have understanding, but it is not wise to lean fully on it because it isn’t as reliable as God. The Bible says He never changes, and He knows about circumstances we can’t possibly be aware of. I believe asking God for wisdom and trying to follow what He tells me to do has kept me from making some big mistakes that could have caused serious problems. Trusting Him reduces stress and is good for our mental health. I honestly believe it is a key to living a longer, healthier, and happier life.

I can’t claim to be at the point where I always remember to do this. As one of my favorite Bible teachers says, “I haven’t arrived yet, but I’ve left the station and I’m on the right track!” I’m learning. So, think of the little poem. **Stop for a moment. Look at the task. Then listen, trusting Him instead of leaning on our own understanding. Then proceed. This is just a good, healthy habit to develop.**
